STUDIES

ENGINEERING INFORMATION SYSTEMS
Pontificia Universidad Catolica del Ecuador

- *Bachelor of Engineering in Information Systems (2021–2026)*
- *RTSH Start to Hack – 2025*

SECONDARY EDUCATION
Ism Academy Quito

- *International Baccalaureate (IB) – Business Management – 2021*
- *High School Diploma – Science – 2021*

EXPERIENCE

SCHLUMBERGER (2023-2024)
- ***Student Intern***
  - Designed and deployed automation flows using Power Automate and Power Apps.
  - Developed web solutions using Node.js, JavaScript, TypeScript, Angular, and React.
  - Contributed to both frontend and backend development across multiple internal systems.

INSTTI (2024-2025)
- ***Fullstack Developer Intern***
  - Managed and maintained internal platforms using the Odoo framework.
  - Handled legal documentation and formal procedures with SENESCYT.
  - Provided technical support to both faculty and students.
  - Developed desktop and web applications using Java.

PROGRACADEMY (2025)
- ***Teacher(Community Service)***
  - Taught programming fundamentals to high school students.
  - Delivered personalized mentoring using Code.org's drag-and-drop learning platform.

FULLSTACK DEVELOPER – FREELANCE
- Developed custom software solutions including web and desktop applications tailored to client needs.
- Built frontend and backend systems using JavaScript, Node.js, and React.
- Delivered responsive interfaces and integrated databases securely.
