

FERNANDO JOSÉ NAVAS MOLINA

QA Specialist & Automation Engineer — Backend / Full-Stack / QA

Quito, Ecuador · navasfernando75@gmail.com · LinkedIn · GitHub · Portfolio

PROFESSIONAL PROFILE

Graduate in Information Systems Engineering (PUCE, 2026) with hands-on experience in full-stack development (Node.js, Java, Angular, PostgreSQL) and manual and automated QA (Selenium, Cucumber, Karate, Playwright). Currently a QA Specialist & Automation Engineer at Banred, leading API testing on the Cobro Directo initiative and ATM traceability. Seeking to keep growing in software development, QA, or automation, bringing a fast learning curve and a results-driven approach.

EXPERIENCE

Banred — Quito, Ecuador Sep. 2026 - Present

Quality Assurance Specialist & Automation Engineer

- API testing for the Cobro Directo initiative, supporting Banco Pichincha, Produbanco, Banco Internacional, and several credit unions.
- ATM traceability at the database, Kubernetes, and Pod level; quality testing and configuration of financial institutions (IFIs), both internal to Banred and external (partner banks and credit unions).

NTT DATA Europe & Latam — Quito, Ecuador Feb. 2026 - Sep. 2026

Jr. Quality Assurance Specialist

Aug. 2026 - Sep. 2026

- Designed and implemented automated E2E tests with Playwright, produced QA evidence/documentation, and contributed to an AI-assisted documentation initiative.
- Designed, executed, and maintained functional and automated test cases, exploring AI-driven QA solutions and collaborating on continuous process improvement.

Quality Assurance Specialist Intern

Jun. 2026 - Aug. 2026

- Ran functional manual testing on the Bizagi and Athento platforms, documenting evidence/incidents and delivering reporting and traceability in Azure DevOps.
- Supported testing with Jira MCP and Serenity, and took part in performance, load, and stress testing to validate reliability.

Data Analyst

Feb. 2026 - Jul. 2026

- Trained in QA tooling (Gherkin, Karate, Selenium, Cucumber, Java) and provided N1 support to banking clients (payments, collections, ISD refunds, and general operational issues).
- Joined national and international incident follow-up and resolution meetings.

Freelance Software Developer — Self-Employed 2023 - 2025

- Built a clinical-history system for a physiotherapy practice: Node.js + Express + Sequelize backend on PostgreSQL, JWT authentication, REST API, and AI-assisted clinical suggestions (OpenAI).
- Developed an online store for an educational institution: shopping cart, inventory, and admin dashboard (Node.js, Express, EJS); gathered requirements and worked directly with clients.

Full-Stack Developer (Intern) — INSTTI · Institute of Intelligent Technologies · Remote Jan. 2025 - Mar. 2025

- Maintained Odoo-based platforms, managed SENESCYT document processing, and built web and desktop applications in Java; provided technical support to faculty and students.

Programming Tutor — Progracademy · Remote Mar. 2025 - Dec. 2025

- Taught introductory logic and programming using Code.org, with hands-on guidance during exercises to build computational thinking and problem-solving skills.

Development and Automation Intern — SLB (Schlumberger) · Hybrid Nov. 2023 - May 2024

- Built AI and computer-vision solutions for text recognition (OCR) in documents, using Power Apps and Power Automate.
- Delivered end-to-end web application development (frontend and backend) with Node.js, Angular, and PostgreSQL.

FEATURED PROJECTS

PymeFlowEc — Modular SaaS ERP for SMEs (thesis project) · Angular · Node.js · PostgreSQL 2026

- Built a multi-tenant SaaS prototype with invoicing, product, and finance modules aligned with Ecuadorian tax regulations (SRI); unit and integration test suite with Jest and Gherkin.

Used-Car Price Prediction — Python, pandas, scikit-learn 2024

- Developed a machine learning pipeline covering exploratory analysis, feature engineering, and supervised regression models.

EDUCATION

Information Systems Engineering — Pontificia Universidad Católica del Ecuador (PUCE) 2021 - 2026

International Baccalaureate (IB) — Business Management · ISM Academy Quito 2021

CERTIFICATIONS

- AWS Partner: Technical Accredited and Migration Acceleration Program (Mar. 2026)
- AWS Academy Graduate: Cloud Foundations, Machine Learning Foundations, Data Engineering, ML for NLP (Dec. 2025 - Jan. 2026)
- OpenAI: API Deployment Practitioner, Consultative Solutions Practitioner, Codex Solutions Practitioner, Technical Practitioner (Aug. 2026, valid through Aug. 2027)
- Cambridge English B2 (2025) · Cisco NDG Linux Essentials · Microsoft Office Specialist (Excel and Word)

TECHNICAL SKILLS

- **Languages:** JavaScript/TypeScript, Java, Python, SQL, Dart
- **Backend / Frontend:** Node.js, Express, FastAPI, REST API, JWT, Angular, React, Flutter
- **QA & Testing:** Playwright, Selenium, Cucumber, Karate, Gherkin, Jest, Jira, Azure DevOps, Kubernetes (traceability)
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Cloud & Automation:** AWS, Azure DevOps, Git/GitHub, CI/CD, Power Automate, Power Apps, UiPath
- **Languages Spoken:** Spanish (native) · English B2 (Cambridge English, 2025) · French (basic)
